

DTC Setup & Load Reference Sheet

----- PRE-FLIGHT SETUP -----

1. Open Briefing Room
2. Click 'Load DTC'
3. Configure the following:
 - Steerpoints (route & IP/Target)
 - Comm Presets (UHF/VHF)
 - TACAN & ILS Frequencies
 - SMS Weapon Programs
 - Countermeasure Programs
4. Click 'Save' to store your DTC

----- IN-COCKPIT LOAD -----

1. On ICP, press LIST
2. Press 0 to access DTC page
3. Wait for system to update avionics

----- VERIFY DTC LOADED -----

- HUD/DED show proper Steerpoints (ICP 4 / STPT page)
- COM1/COM2 show correct channels (ICP 1/2)
- SMS page reflects correct weapon settings
- TACAN/ILS are correctly pre-set (ICP 1 / T-ILS)

----- TROUBLESHOOTING -----

- Missing STPTs? -> Reload DTC via LIST > 0
- Default SMS? -> Reconfigure and re-save DTC
- Wrong ILS? -> Enter manually or check DTC

TIP: Always re-save your DTC after editing flight plan or loadout!
